

EXPLANATION OF COMMISSION DETERMINATION ON ADEQUACY

in

Iron Construction Castings from Brazil, Canada, and China,
Inv. Nos. 701-TA-249, 731-TA-262, 263, 265 (Third Review).

On August 6, 2010, the Commission determined that it should proceed to expedited reviews in the subject five-year reviews pursuant to section 751(c)(3)(B) of the Tariff Act of 1930, as amended, 19 U.S.C. § 1675(c)(3)(B).

With regard to each of the reviews, the Commission determined that the domestic interested party group response to the notice of institution was adequate. The Commission received a joint response with company specific data from three domestic producers: East Jordan Iron Works, Inc.; Neenah Foundry; and U.S. Foundry & Manufacturing Co. That response also contained individual data and statements of willingness to cooperate with Commission data requests from domestic producers D & L Foundry and Vestal Manufacturing Enterprises, Inc. The Commission found each of the five producer responses to be individually adequate. Because the Commission received an adequate response for domestic producers accounting for a substantial percentage of U.S. production, the Commission determined that the domestic interested party group response was adequate.

The Commission did not receive a response from any respondent interested parties concerning subject imports from Brazil, Canada, or China and therefore determined that the respondent interested party group responses to the notice of institution were inadequate with regard to each of the reviews.

The Commission did not find any circumstances that would warrant conducting full reviews of the orders. The Commission, therefore, determined to conduct expedited reviews of the orders.

A record of the Commissioners' votes is available from the Office of the Secretary and on the Commission's website (<http://www.usitc.gov>).
