

**EXPLANATION OF COMMISSION DETERMINATION ON ADEQUACY**

in

*Sulfanilic Acid from China and India*

Inv. Nos. 701-TA-318 and 731-TA-538 and 561 (Third Review)

On July 5, 2011, the Commission determined that it should proceed to expedited reviews in the subject five-year reviews pursuant to sections 751(c)(3)(B) of the Tariff Act of 1930, as amended, 19 U.S.C. § 1675(c)(3)(B).

The Commission received a single domestic producer response from Nation Ford Chemical Company (“Nation Ford”). The Commission found this individual response to the Commission’s notice of institution to be adequate for all the reviews. The Commission further determined that the domestic interested party group response was adequate for all the reviews because Nation Ford accounted for all domestic sulfanilic acid production.

The Commission did not receive a response from any respondent interested party for any of the reviews and, therefore, determined that the respondent interested party group responses were inadequate for all the reviews.

The Commission did not find any circumstances that would warrant conducting a full review of any order. The Commission, therefore, determined to conduct expedited reviews of the orders.

A record of the Commissioners’ votes is available from the Office of the Secretary and the Commission’s web site (<http://www.usitc.gov>).
