

## EXPLANATION OF COMMISSION DETERMINATION ON ADEQUACY

in

### *Chlorinated Isocyanurates from China and Spain* Inv. Nos. 731-TA-1082-1083 (Second Review)

On December 7, 2015, the Commission determined to conduct full reviews in the subject five-year reviews pursuant to section 751(c)(3)(B) of the Tariff Act of 1930, as amended, 19 U.S.C. §1675(c)(3)(B).

The Commission received a joint response to the notice of institution from Bio-Lab, Inc., Clearon Corp., and Occidental Chemical Corp., domestic producers of chlorinated isocyanurates. The Commission unanimously found each domestic producer's individual response to be adequate. Because the Commission received data from producers accounting for a substantial proportion of domestic production, it therefore unanimously determined that the domestic interested party group response was adequate.

The Commission did not receive a response to the notice of institution from any respondent party for either China or Spain. Consequently, the Commission unanimously determined that the respondent interested party group response for each subject country was inadequate.

However, in light of changes in conditions of competition that have occurred in the U.S. market since the first reviews, the Commission concluded that conducting full reviews was warranted.<sup>1</sup>

A record of the Commissioners' votes is available from the Office of the Secretary and at the Commission's website ([www.usitc.gov](http://www.usitc.gov)).

---

<sup>1</sup> Vice Chairman Pinkert, Commissioner Williamson, and Commissioner Schmidlein voted to conduct expedited reviews of the orders, because they did not find any circumstances that would warrant conducting full reviews.
