

## EXPLANATION OF COMMISSION DETERMINATION OF ADEQUACY

in

### *Glycine from China*

Inv. No. 731-TA-718 (Fourth Review)

On November 4, 2016, the Commission determined to conduct an expedited review in the subject five-year review pursuant to section 751(c)(3)(B) of the Tariff Act of 1930, as amended, 19 U.S.C. § 1675(c)(3)(B).

The Commission received a single response to its notice of institution filed on behalf of GEO Specialty Chemicals, Inc. ("GEO"), a domestic producer of glycine. The Commission found GEO's individual response adequate. Because GEO represented a substantial share of domestic production of glycine in 2015, the Commission unanimously determined that the domestic interested party group response was adequate.

The Commission also unanimously determined that the respondent interested party group response was inadequate, as no respondent interested party filed a response to the notice of institution.

The Commission did not find any circumstances that would warrant conducting a full review. The Commission, therefore, determined to conduct an expedited review of the order.

A record of the Commissioners' votes is available from the Office of the Secretary and at the Commission's website ([www.usitc.gov](http://www.usitc.gov)).
